Leather

Size 42: 590 g

- The flexible nail protection of special textile increases comfort and protects against cold. In addition, the textile midsole is larger and better protects against nails and sharp objects in a wider area compared with a steel midsole.
- Stabilisation with MASCOT's patented multi-function shank, makes our footwear suitable even when working on uneven surfaces or on ladders.
- The outsole of hard wearing PU is transfer resistant (non-marking). Very slip resistant sole/SRC.
- Shock-absorbing insole of EVA. Breathable and with TPU arch support. The footwear is ESD approved with this insole.
- The composite toecap is completely free of metal. The composite material does not conduct heat or cold, so the composite toecap provides extra comfort in both hot and cold surroundings.
- The BOA® Fit System is made from extremely durable, high-quality materials. BOA® allows you to dial in to a fast, effortless, precision fit.

Certifications
