

High Voltage Rescue Hook - Volt Safety

Volt Safety's High Voltage Rescue Hook is designed to safely perform a rescue up to 36kV on a victim that is currently incapacitated from a high voltage source.

Key Features:

- Size: 172cm x 51cm x 3.2cm assembled
- Weight: 1.6kg
- Hook can be removed from shaft to reduce length and width for transportation and storage
- Hook 51cm gap ensures enough width to perform a high voltage rescue
- Designed for rescue on voltages up to 36kV
- Type tested to 50kV

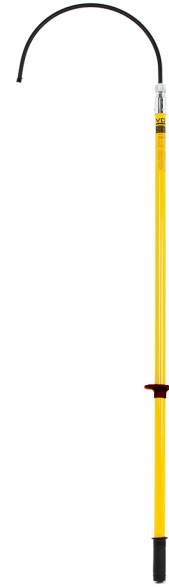

Standards:

- Type tested to 50kV

Options:

[High Voltage Rescue Kit](#)

A portable High Voltage Rescue Kit to ensure you can safely perform a rescue on high voltage sources up to 36kV
